Academic success is not a hope; it is an expectation.

ACADEMIAS PREPARATORIAS AUTÓNOMAS

El éxito académico no es una esperanza; es una expectativa.

"There are teachers who truly care and go the extra mile to have our children succeed." – UCSN Parent

"Hay profesores que realmente se preocupan y hacen esfuerzos adicionales para que nuestros hijos tengan éxito." – Padre de UCSN

Nuestra Filosofía Educativa

Creemos firmemente que todos los estudiantes pueden aprender y alcanzar la oportunidad de desarrollar su potencial. Mediante nuestro enfoque pedagógico y el enfoque individualizado desarrollamos a nuestros estudiantes con integridad, comprometidos diligentemente, con un fuerte sentido de propósito, y preparados para el éxito en la universidad.

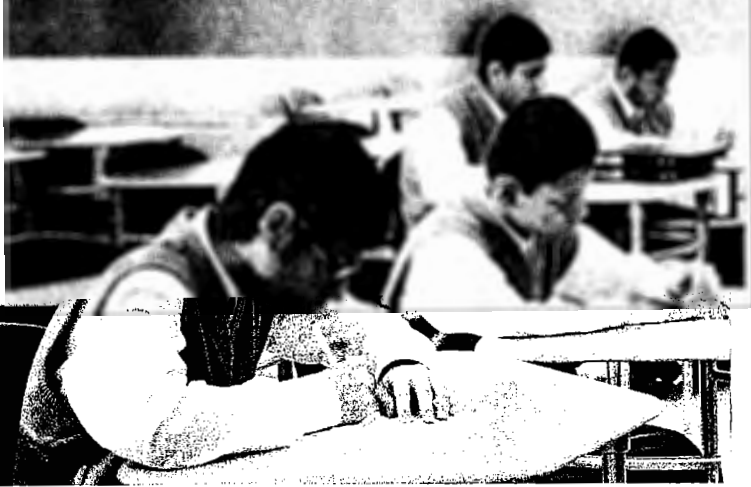

Accesibilidad y el Enfoque Basado en Proyectos: Nuestro enfoque pedagógico de proyectos directamente se basa en que el siglo 21 demanda a nuestros estudiantes de preparatoria sean pensadores críticos.

Relaciones a través de Asociaciones: Nuestros estudiantes desarrollan un ciclo de asociación de un solo sentido con un maestro que dura desde la admisión hasta su graduación. Los Asesores desarrollan relaciones de asociación significativas con los estudiantes y sus familias a través de conferencias académicas semanales, de reportes trimestrales, visitas a casa y llamadas telefónicas constantes para ayudar al estudiante a tener éxito a través de su trayectoria en académico y su trayecto a la universidad.

Servicio Comunitario: Junto con nuestro énfasis en Civismo, nuestros estudiantes aprenden a servir a sus comunidades a través de una variedad de actividades y experiencias de Pimerolink. Todos los estudiantes deben completar un mínimo de 250 horas de servicio para recibir un crédito. Los estudiantes pueden calificar para los premios de liderazgo comunitario en un liderazgo sobresaliente y su participación en el servicio comunitario.

Preparación para la Universidad: Todos los estudiantes en UNO García preparan para la universidad. Se ofrecen cursos sobre Pre-Calculus, Álgebra Avanzada (Advanced Placement - AP), y Puente Matemático para los estudiantes de 11to y 12to grado. Las experiencias estudiantiles en campus universitarios y nuestro Programa de Apoyo estudiantil ofrece la mayor exposición a nuestros estudiantes a la investigación y a la academia universitaria.

Relacionando la Vida: Nuestros estudiantes se involucran en actividades extracurriculares durante sus cuatro años de permanencia en nuestra escuela. Se gradúan como ciudadanos globales, modelos que son pensadores críticos, articulados, emprendedores y pensadores comprometidos.

We strongly believe that all students can learn and deserve the opportunity to realize their potential. Through our rigorous curriculum and individualized approach, we develop students who act with integrity, are civically engaged, intellectually curious, and prepared for success in college and beyond.

Project-Based Learning Model: Our project-based approach directly addresses the 21st century demands that high school graduates be critical thinkers.

Building Relationships Through Advisories: Our students are grouped together in single-gender advisory groups with a teacher who will remain their Advisor through graduation. Advisors develop authentic, meaningful relationships with students and their families via weekly phone conferences, monthly check-ins, home visits, and ongoing collaboration to help the student succeed throughout his/her academic career and graduate college-bound.

Community Service: In conjunction with our emphasis on Civics, our students learn to serve their communities through a variety of projects and immersion experiences. All students must complete a minimum of 250 service hours in order to graduate. Students can qualify for college scholarship awards based on outstanding community service leadership and commitment.

Prepared for College: All UCSN high school students will be prepared for college. Honors, Advanced Placement (AP), and College-Bridge courses are offered for 11th and 12th grade students. Summer experiences on college campuses and our Graduate Support Program further expose our students to college life and academics.

Prepared for Life: Our students engage in rigorous, critical study over their four years at UCSN. When they graduate, they are global, model citizens who are self-disciplined, articulate, entrepreneurial, and lifelong thinkers.
